The Electronic Media Review is published once every two years in print format by the Electronic Media Group (EMG), a specialty group of the American Institute for Conservation of Historic and Artistic Works (AIC). The Electronic Media Review is distributed as a benefit to members of EMG who held membership during the year of the issue. Additional copies or back issues are available from AIC. All correspondence concerning subscriptions, membership, back issues, and address changes should be addressed to:

The Electronic Media Review is a non-juried publication. Papers presented at the EMG session of the AIC Annual Meeting are selected by committee based on abstracts. After presentation, authors have the opportunity to revise their papers before submitting them for publication in The Electronic Media Review. There is no further selection review of these papers. Independent submissions are published at the discretion of the EMG Publications Committee. Authors are responsible for the content and accuracy of their submissions and for the methods and materials they present. Publication in The Electronic Media Review does not constitute official statements or endorsement by the EMG or by the AIC.

PREFACE

EMG is very pleased to present the second volume of *The Electronic Media Review*, a biennial publication of the talks presented at the EMG session of the AIC Annual Meeting. This volume contains the post-prints from the 2011 EMG session in Philadelphia, Pennsylvania, and the 2012 session in Albuquerque, New Mexico.

This publication is free to members of EMG during the period covered by the talks. To join EMG, visit www.conservation-us.org/electronic-media.

The EMG Officers and Publications Committee are indebted to the speakers at our Annual Meeting sessions in 2011 and 2012 for sharing their research and providing a foundation of knowledge for the conservation of electronic media. A special thanks to the Publications Committee members: Briana Feston, Jane Klinger, and Sarah Norris, for their excellent work in editing the papers for this volume and to EMG board members Helen Bailey and Stephanie Gowler for their much needed help in getting these papers to publication.
